What this means

Acme Realty Group closed 5 audited transactions totalling \$4,070,000.00 in sale volume during January 1, 2025 – March 31, 2025, generating \$223,700.00 in gross commission. Agents should have received \$80,920.00 but were actually paid \$79,400.00. Overall, 2 of 5 deals (40.0%) did not match the contract, leaving a net variance of -\$1,520.00. The brokerage overpaid agents by \$1,680.00 across 1 deal — money that is recoverable and currently sitting outside the brokerage's control. \$3,200.00 remains owed to agents across 1 deal, which should be settled before it becomes a dispute. Separately, \$3,500.00 of expected incoming referral income tied to 1 deal has not been collected. In total, \$5,020.00 of leakage and outstanding income is quantified in this report.

Recommendations

Specific actions derived from the findings in this report, highest priority first.

1

Recover \$1,680.00 in overpayments

PRIORITY

The brokerage disbursed above the contractual split on 1 of 5 audited deals, totalling \$1,680.00. Reconcile each against its settlement statement and issue an adjusting entry, agent ledger credit or repayment schedule. Largest single overpayment: \$1,680.00.

2

Settle \$3,200.00 owed to agents

PRIORITY

1 deal underpaid the agent by \$3,200.00 in total. Unpaid compensation is the fastest route to an agent dispute — confirm the shortfall with the agent ledger and pay it promptly. Largest single shortfall: \$3,200.00.

3

Invoice \$3,500.00 in outstanding referral income

REVIEW

An incoming referral fee totalling \$3,500.00 remains uncollected across 1 deal. Pull the referral agreements, confirm the amount and due date with the referring brokerage, and issue invoices for every outstanding fee.

4

Tighten disbursement controls — 40.0% of deals were mis-paid

REVIEW

2 of 5 deals (40.0%) did not match the contract. A rate this high points at a process gap rather than isolated typos: re-check how commission splits are entered in the transaction management system and who verifies them before payout.

5

3 of 5 deals reconciled perfectly — find out why

GOOD PRACTICE

The correctly-paid deals show that the intended process works. Compare them against the mis-paid deals and document the difference (agent, office, deal type, data source) so the reliable path becomes the default.
